iV14-Zero

Whisper-quiet sound protection fan

FOR THE HIGHEST DEMANDS:

Sound insulation up to 56 dB for quiet areas. As a corner version up to 60 dB.

PARTICULARLY QUIET OPERATION:

Whisper mode with 10 dB(A) thanks to the Xenion® fan especially for decentralized ventilation.

QUICK INSTALLATION:

Easy installation with Simplex, wall mounting block including pre-installed pipe with gradient.

COLD PROTECTION:

Sensor technology prevents cooling down in winter.

WIND PROTECTION:

Pressure stabilizer ensures extremely smooth running.

RELIABILITY:

5 year manufacturer warranty.

Technical Data

AIR VOLUME FLOW [m³/h]	8,5 – 29
EXHAUST AIR VOLUME FLOW [m³/h]	17 – 58
HEAT RECOVERY [%]	87
POWER CONSUMPTION [W]	3
SOUND EMISSION [dB(A)], 2 m	10 – 31
STANDARD SOUND LEVEL DIFFERENCE [dB]	48 – 56
WALL OPENING [Ø, mm]	225
ENERGY EFFICIENCY CLASS	A+ / A

The most quiet fan

The new iV14-Zero with inVENTron® technology and a new Xenion® fan (sound-absorbing fan) promises high-performance and whisper-quiet ventilation of your own four walls. The patented sound insulation transforms the iV14-Zero into a sound-absorbing fan and reduces external and internal noise to a minimum.
