Extract air fan Aviant

With unique odour sensor

The Aviant is a multifunctional extract air fan that can be controlled both via the inVENTer Mobile app and via a touch panel on the device. In addition to its unique odour sensor, it features an integrated light sensor and fully automatic humidity monitoring.

Technical details

Extract air volume flow [m ³ /h]	95
Extract air volume flow without cover [m ³ /h]	115
Power consumption [W]	2 – 5
Operating voltage [V AC] / [Hz]	230 / 50
Sound emission [dB(A)]	17 – 20
Type of protection / protection class	IP44 / II
Dimensions of casing [W x H x D, mm]	185 x 160 x 40

Advantages

- **Against odours:** Unique odour sensor ensures freshness in the extract air room.
- **Mobile app:** Simple and smart operation via app or via touch panel on the device.
- **Quickly cleaned:** Removable fan and magnetic cover facilitate maintenance work.
- **Intelligently protected:** Protection through automatic, regular basic ventilation.
- **Proven sensor technology:** Integrated light sensor and fully automatic humidity monitoring.
- **Flexibility:** Wall or ceiling installation possible.
- **Reliability:** 5 years manufacturer warranty.
